

Dear year 10 Parents/Carers

Did your child miss any school vaccinations? It's never too late to get protected.

All secondary school children are offered vaccinations to protect them against HPV related cancers. As well as vaccinations to boost their antibodies following the vaccines they received as a baby and ensure they remain protected against Diphtheria, tetanus, polio and Meningitis ACWY into adulthood, Please access the below link if you think your child has missed any routine vaccinations, including MMR vaccinations.

<https://econsent.merseycare.nhs.uk/> (Use google chrome)

We hope this information is helpful to help you make an informed decision about your child's vaccinations and health.

Please complete your child's consent forms even if you DO NOT want your child to receive this vaccination, this will avoid you receiving further follow up correspondence from our service and assist with campaign delivery.

If you wish to change your decision or amend your form at any time after submission, you must contact the immunisation service.

* Please do not re-submit a further consent form.

If you would like to discuss anything further or require support, please don't hesitate to contact the immunisation service on 0151 295 3833

Many Thanks,

Liverpool School Based Immunisation Services
