Re: Year 11 Data Afternoon

Dear families,

I am writing to remind you about an important upcoming date for our school calendar for all students at Dixons Broadgreen Academy on Thursday 11 December.

On this day, we are holding our Year 11 Data Afternoon. Like our recent Data and Planning Days earlier in November, this is a key part of our commitment to supporting every student's final climb up their mountain. Staff use this time to carefully review Year 11 assessment information and plan the best ways to help our students close the gaps in their learning after their crucial mock exams have finished; allowing staff and students to maximise the next term until their final exams begin.

What this means for you and your child:

- The academy will close early for all students at 12pm on Thursday 11 December.
- All students will be able to have an early lunch before leaving school.
- School will reopen as normal on Friday 12 December, at 8am.

Year 11 students and their families are then invited to join their mentors in the evening on the 11th to review their assessments in depth, get feedback on next steps, plan how to move forwards together. Students will make appointments for this event in due course.

We know that changes to the school day can affect families, and we want to support you as much as possible. During the afternoon, we encourage all students to use their time at home for learning and revision.

Students can access online learning through Seneca Learning, Sparx Maths, and complete any subject revision or homework set by their teachers. Guidance about this is available on our school website, here: [Dixons Broadgreen Academy | Remote learning](#)

If you have any questions, need extra support, or help accessing the online learning please contact us in the usual way. We are here to help every family.

Thank you for your continued support. Working together, we can help every child achieve their best.

Yours sincerely,

Mr A Samy
Principal
